WATER DISTRICT

Memo

To: Board of Directors
From: Staff
Date: October 13, 2022
Subject: Emergency Response Plan

Crestline Village Water District's Emergency Response Plan was provided to each of the Directors and District Counsel for review. The ERP will need to be certified every 5 years. With the adoption of this years' ERP, the next renewal will be due by December 31, 2026. It was brought to our attention our ERP for 2021 could not be located, which resulted in the need to do it this year.
