MANAGER'S REPORT.

Field Manager

Field Manager Sale reported that hydrant maintenance has begun. It has been several years since we have done this, and we are trying to get back on track.

This past month we have had a few main leaks on Wylerhorn. The main pipe in this area is PVC and not C900 and thus will be looked at for replacement.

The parking lot was re-sealed with the usual double coating to last.

The Electra Well has been shut off due to air in the water. An additional 200 ft of pipe will be added to allow the pump level to be well below the drawdown level.

Office Manager

California Computer Options – We have partially transitioned to Circle as our new MSP (Managed Services Provider). They have visited the office to set up each computer for their remote access and security.

Circle also provides Managed Print Services. After discussions with them regarding the costs associated with printer maintenance and supplies, we have decided to change out our printers. Our current monthly cost for printing is \$1,507.77. With the upgraded equipment, our new cost will be \$999.85, which is annual savings of \$6,095.04.

B&W: Old: \$0.05 New: \$0.0075
Color: Old: \$0.24 New: \$0.08

We have been working with Brad Neufeld with Varner & Brandt on the Districts' Personnel Manual. We have almost completed all updates and will provide a draft copy at the October Board meeting to finalize. The cost associated thus far is: \$3,948.89.

CSDA Conference Office Manager Quine attended the CSDA Conference from August 25, 2025 – August 28, 2025. She attended many Breakout Sessions and gathered useful information. Some of those classes included compliance, policies, training, personnel manuals, labor laws, conflict resolution, Surplus Land Act, and Board vacancies.

General Manager

District Projects List: Included in the packet are a list of projects that the District feels is the most important. We will be working on this list with Kiley & Associates to determine the viability for grant money.

JPIA Cyber Security: ACWA JPIA has partnered with KYND to provide ACWA JPIA Cyber Liability Program members with access to the KYND ON dashboard and KYND Signals Report at no charge, aiming to help members strengthen their agency's cyber risk management posture.

Grants Update:

Updates from DC. The earmark water funding is still on track. As we have heard they may include earmarks to a short-term funding bill, but it does look like a possible government shutdown may occur at the end of this month, on September 30th. If this does happen, we hope the earmarks will lead to an end of the stalemate and be used as a bargaining chip.

DIRECTORS' REPORTS:

1. Director's Reports: None
2. Requests for Future Agenda Items: None.
3. Staff Items: Personnel Manual for September or October Board Meeting.

FINAL

As there was no further business to discuss, the meeting was adjourned at 4:34 pm. The next meeting date is October 14, 2025. This meeting will be held in person at the District office at 3pm.
