11th Annual SBC Water Conference

August 11, 2017 | Ontario DoubleTree Hotel

Join Us August 11!

Managing Water for Extremes: Feast or Famine
Event Program (partial)

BENEFITS AND CHALLENGES OF PUBLIC & PRIVATE WATER AGENCIES

The dynamic between public and private systems has always been interesting, especially in the case of water and wastewater systems. We will highlight what's been happening in the region and discuss the different rules for rates and plans for low income assistance programs.

WATER EDUCATION: LESSONS LEARNED

This panel discussion will highlight some of the projects from the region and resulting outcomes from those projects. Some of the questions that will be touched on include: Have the outcomes of projects changed the way we plan for future projects? What do demonstration gardens look like now? Do they have a collective impact? How do we prepare for the next drought? How have rebate

When

Friday August 11, 2017
9:00 a.m. to 1:00 p.m.
(Registration at 7:30 a.m.)

Where

programs changed?

WHERE DO WE GET MORE DRINKING WATER FROM?

This roundtable discussion will challenge our panelists to identify ways we can increase our water supply such as continued conservation, new infrastructure, stormwater capture, expansion of recycled water and desalinization or new technologies. You won't want to miss this

THE WATER-ENERGY NEXUS

The other side of water delivery and management is the energy it takes to produce it. Higher costs of energy are going to drive agencies budgets which will affect rates and infrastructure moving forward. What can agencies do to address this looming problem?
